This presentation has been prepared by and is the sole responsibility of **Aditya Infotech Limited** (the “Company”). By accessing this presentation, you are agreeing to be bound by the trailing restrictions.

This presentation does not constitute or form part of any offer or invitation or inducement to sell or issue, or any solicitation of any offer or recommendation to purchase or subscribe for, any securities of the Company, nor shall it or any part of it or the fact of its distribution form the basis of, or be relied on in connection with, any contract or commitment thereof. In particular, this presentation is not intended to be a prospectus or offer document under the applicable laws of any jurisdiction, including India. No representation or warranty, express or implied, is made as to, and no reliance should be placed on, the fairness, accuracy, completeness or correctness of the information or opinions contained in this presentation. Such information and opinions are in all events not current after the date of this presentation. There is no obligation to update, modify or amend this communication or to otherwise notify the recipient if the information, opinion, projection, forecast or estimate set forth herein, changes or subsequently becomes inaccurate.

Certain statements contained in this presentation that are not statements of historical fact constitute “forward-looking statements.” You can generally identify forward looking statements by terminology such as “aim”, “anticipate”, “believe”, “continue”, “could”, “estimate”, “expect”, “intend”, “may”, “objective”, “goal”, “plan”, “potential”, “project”, “pursue”, “shall”, “should”, “will”, “would”, or other words or phrases of similar import. These forward-looking statements involve known and unknown risks, uncertainties, assumptions and other factors that may cause the Company’s actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements or other projections. Important factors that could cause actual results, performance or achievements to differ materially include, among others: (a) our ability to successfully implement our strategy, (b) our growth and expansion plans, (c) changes in regulatory norms applicable to the Company, (d) technological changes, (e) investment income, (f) cash flow projections, and (g) other risks.

This presentation is for general information purposes only, without regard to any specific objectives, financial situations or informational needs of any particular person. The Company may alter, modify or otherwise change in any manner the content of this presentation, without obligation to notify any person of such change or changes.

Management Commentary

Commenting on the Results, Mr. Aditya Khemka, Managing Director said:

"Q3 FY26 marked another quarter of profitable growth and operational excellence for Aditya Infotech Limited. During the quarter, our revenue grew 37.3% to INR 1,139.1 crore, supported by scaled execution and robust demand for CP PLUS-branded IP cameras and our extensive STQC-certified portfolio. EBITDA surged 98.7% YoY to INR 144.6 crore with margins accretion by 391 bps YoY to 12.7%, driven by a favourable product mix, higher localization, and favourable operating leverage. Adjusted Profit After Tax increased 138.8% YoY to INR 96 crores.

For 9M FY26, revenue grew 31.1% YoY to INR 2,798.8 crores, while EBITDA rose 100.5% YoY to INR 320.6 crores, with margins expansion by 395 bps YoY to 11.4%. Adjusted Profit After Tax for 9M FY26 stood at INR 198.9 crores, representing an increase of 138.6% YoY.

On the technology front, we announced a landmark collaboration with Qualcomm Technologies to develop AI-enabled, insight-driven video security solutions for India's industrial, enterprise, and public safety applications. The partnership combines CP PLUS' product ecosystem and distribution strength with Qualcomm's edge AI hardware, on-device processing capabilities, and AI software platforms, with commercial availability is expected in the first quarter of 2026.

Our multi-brand strategy allows us to serve customers across multiple price points. With our newly introduced product 'Nexivue', we are expanding our presence in rural and mass-market segments, including the unorganized sector, with products expected to reach the market by the end of February 2026. The exit of non-STQC brands has created a structural vacuum, positioning this multi-brand approach as a strategic advantage for us to maximize market share while preserving the premium positioning of CP PLUS.

On the Marketing front, we are collaborating with acclaimed actor Vijay Sethupathi as our Brand Ambassador to strengthen our consumer presence in Tamil Nadu by making advanced security solutions more approachable, relevant, and culturally resonant for households and businesses alike.

Further, we continued to strengthen our leadership in India's video surveillance market, supported by favorable industry tailwinds and the shift toward STQC-certified solutions, which is driving consolidation in favor of home-grown players. With one of the most comprehensive STQC-certified product portfolios and strong local manufacturing capabilities, we are well positioned to consolidate market share. Our market share stood at ~38.9%, in Q2FY26 highlighting a significant market share gain of ~7.5% QoQ. For Q3 FY26, contribution from CP PLUS stood at ~87% of revenue with IP cameras forming nearly ~75% of our overall portfolio.

To support this growing demand, we continue to scale manufacturing capacity, currently at 1.8 million units per month, with plans to scale to 2.1 million units per month by Q4 FY26.

Backed by strong industry tailwind and disciplined execution, we are revising our FY26 outlook to reflect revenue growth at the upper end of the projected range and EBITDA margins of 11-12%. We are also increasing our PAT guidance to 7-7.5%, reinforcing our commitment to long-term value creation for all stakeholders.

Aditya Khemka
