

CP PLUS Sets the Stage for India's Security Future: From Railways to Homeland Resilience

The month of August 2025 marked yet another chapter of leadership for **CP PLUS**, India's most trusted brand in security and surveillance. Staying true to its mission of *securing Bharat with indigenized innovation*, CP PLUS stood tall at three prestigious events: the **19th Annual Conference on Railways in India**, the **14th Strategic Electronics Summit (SES 2025)**, and the **10th International Police Expo & 9th India Homeland Security Summit 2025**. Across these stages, CP PLUS not only showcased its groundbreaking technologies but also reaffirmed its role as a frontrunner in shaping India's security ecosystem.

CP PLUS at the 19th Annual Conference on Railways in India: Safeguarding the lifeline of the Nation

Railways form the lifeline of India, carrying millions of passengers daily and enabling the seamless movement of goods across the country. At the **19th Annual Conference on Railways in India**, CP PLUS once again demonstrated why it is at the **forefront of rail safety and surveillance innovation**.

With the **largest portfolio of STQC-Certified, Made-in-Bharat security solutions**, CP PLUS highlighted technologies that directly address the challenges of securing sprawling railway networks - stations, tracks, yards, and rolling stock. Its advanced PTZ cameras, AI-enabled analytics, and command-and-control integration platforms attracted significant attention for their ability to **detect anomalies in real time, monitor large crowd flows, and ensure passenger safety at scale**.

More importantly, CP PLUS emphasized the relevance of **indigenous surveillance solutions** that align with India's **Atmanirbhar Bharat vision**. As cyber risks, vandalism, and passenger safety threats loom large, CP PLUS reaffirmed its commitment to **building resilient, compliant,**

and future-ready systems. The event spotlighted the company's role as a trusted technology partner in the transformation of Indian Railways into a smarter, safer, and more efficient ecosystem.

CP PLUS at SES 2025: Redefining India's Security Landscape

The **14th Strategic Electronics Summit (SES 2025)** was yet another moment of pride, where CP PLUS stood at the center of India's evolving dialogue on security, sovereignty, and technology. Unlike a mere exhibitor, CP PLUS played the role of **thought leader and innovation driver**, strengthening its identity as a partner of national importance.

At the CP PLUS pavilion, visitors engaged with **the widest range of STQC-certified surveillance systems** in the country - ranging from **mission-critical cameras engineered for defense and homeland applications** to **sophisticated command-and-control platforms** capable of handling massive real-time data streams. The clear message was that **indigenous, compliant, and robust technologies** are not optional but essential to safeguard India's national security.

Adding depth to the company's presence, **Mr. M.A. Johar, President – Strategic Business, CP PLUS**, led a crucial panel discussion on *"The Importance of Strategic Electronics in Internal Security and the Role of Industry."* His address highlighted how **public-private collaboration, strategic investments in R&D, and self-reliant ecosystems** are indispensable to building India's security resilience.

Mr. Johar's remarks also reinforced CP PLUS's stance: **"Technology sovereignty is national sovereignty."** By championing indigenized innovations, CP PLUS underscored the necessity of reducing dependency on external players and advancing India's homegrown security landscape with pride and precision.

The summit ended with CP PLUS being recognized by peers and policymakers alike as a company that is not just delivering products but **shaping the future of India's internal security architecture**.

CP PLUS at the 10th International Police Expo & 9th India Homeland Security Summit 2025: Leading the Future of Policing

The month concluded on a high note with CP PLUS's outstanding showcase at the **10th International Police Expo** and the **9th India Homeland Security Summit 2025** - events that brought together global and Indian stakeholders in policing, defense, and national security.

Here, CP PLUS was truly the **spotlight of the exhibition floor**, with its dynamic portfolio of **AI-powered surveillance innovations, smart analytics, and next-generation command solutions**. From **facial recognition systems** to **behavioral analytics** and **AI-Instastream bandwidth optimization technologies**, CP PLUS demonstrated how tomorrow's policing

challenges - be it **crime detection, crowd control, cyber resilience, or rapid response** - are being solved with precision-engineered, Made-in-Bharat systems.

Delegates, police officials, and homeland security leaders engaged deeply with CP PLUS's **Integrated Command & Control Centers (ICCCs)**, which combine **video analytics, big data solutions, and smart alerts** to empower decision-making in real time. These solutions are already being deployed across multiple Indian states and metro projects, offering proof of the company's vision for **smarter, data-driven policing**.

The event also provided CP PLUS with an opportunity to showcase its **dedication to India's national security frameworks**. By integrating **indigenous chipsets, AI-driven platforms, and compliance-ready technologies**, CP PLUS is setting a new benchmark for secure, scalable, and future-ready policing solutions.

A Unified Message: Trusted, Tested, and Made in Bharat

Across these three landmark events in August 2025, CP PLUS sent a clear, unified message: the future of India's safety lies in **indigenized, STQC-certified, and innovation-driven surveillance systems**.

Whether it is **protecting millions of daily railway passengers, empowering the strategic electronics sector, or redefining homeland policing**, CP PLUS's technologies are not just reactive tools but **proactive enablers of safety, efficiency, and national resilience**.

The company's strong emphasis on **AI integration, compliance with Indian regulations, and future-proof designs** reflects its vision of creating solutions that are **globally competitive yet deeply rooted in Bharat's needs**.

Looking Ahead

As India accelerates its journey toward becoming a **global leader in security and surveillance technologies**, CP PLUS remains unwavering in its commitment to being the **torchbearer of trust, quality, and innovation**. Successful participation in these events underscores not just the company's market leadership but also its **strategic role in nation-building**.

From **railway modernization** to **strategic defense dialogues** and **homeland policing transformation**, CP PLUS continues to stand as a partner of choice for governments, institutions, and communities alike.

August 2025 was not just a month of events - it was a reaffirmation of CP PLUS's leadership in securing Bharat, today and tomorrow.
