

CP PLUS Unveils the Largest Range of Government-Approved & Cyber-Secured Smart Home Wi-Fi Cameras

CP PLUS, India's leading security and surveillance brand, proudly introduces the **largest range of Government-Approved & Cyber-Secured Smart Home Wi-Fi Cameras**, setting a new benchmark for trusted home security. With the **ezyKam+ series**, CP PLUS empowers households to embrace smarter living while ensuring unparalleled safety, privacy, and digital trust.

Designed with cutting-edge features such as **360° view, Human Detection, Motion Tracking, 2-Way Talk, and Private Mode**, these cameras deliver not just security but peace of mind for every Indian home.

At the heart of this innovation lies **CTC (CP PLUS Trusted Core) Technology**, which ensures **strong cryptography algorithms, secure boot, and robust data protection**. These features make CP PLUS the go-to choice for families looking for intelligent, cyber-secured, and reliable surveillance solutions.

“Security at home is no longer limited to physical protection, it is equally about digital safety and privacy. With our government-approved and cyber-secured Wi-Fi cameras, CP PLUS is making advanced surveillance accessible, secure, and trustworthy for every household in Bharat,” said **Mr. Aditya Khemka, Managing Director, CP PLUS (Aditya Infotech Ltd.)**.

The **ezyKam+ Smart Wi-Fi range** is also equipped with **cloud storage options**, ensuring that critical footage is safely stored and easily accessible. Whether it's monitoring children, elderly family members, or keeping an eye on your home while away, CP PLUS offers a seamless blend of convenience and confidence.

By introducing the **largest range of Government-Approved & Cyber-Secured Smart Wi-Fi Cameras**, CP PLUS once again reaffirms its position as a pioneer in security innovations - strengthening its promise of making Bharat not just smarter, but also safer.
